Skills

Overview

Programming

0 LOC —————→ 5000 LOC

Mongodb • SQL

HTML5 • JS • CSS

Python

Scala • C++ • Java

Profile

An IT enthusiast with 1 year of experience working interested in a variety of technologies like Internet Technologies, Artificial intelligence, machine learning, deep learning, dev ops etc.

Education

- Feb 2018 - **Master of Science (M.Sc.), Data Science** Wrocław University of Science and Technology, Poland
- present **Thesis:** Modelling virus spreading in complex networks
- Oct 2014 - **Engineer's Degree (Eng.), Computer science and management.** Wrocław University of Science and Technology, Poland
- Feb 2018 **Thesis:** Application for supporting remote estimation of story points with the Planning Poker method

Experience

- Aug 2018 - **Integration and Verificatio** (Working Student) Nokia Solutions and Networks, Poland
- Jul 2019
- Technologies: Robotframework, Python, Gitlab
 - Configuring of test enviroment for 5G testing
 - Running tests

Projects

- Aug 2020 - **Reddit posts scrapping** DevOps Engineer
- Jan 2021
- Helm charts deployment
 - Kubernetes
 - Docker
 - Celery aplication which uses rabbitmq queue for scrapping
 - Prometheus metrics and grafana charts
- Feb 2020 - **Recommender System with Machine Learning and AI** Data scientist
- May 2020
- System which recommends music and movies for users.
 - Team size: 2
 - Technologies: Pytorch, Surprise, Tensorflow
- Jun 2018 - **Planning Poker** Frontend developer
- Feb 2019
- Single-page application to support remote teams in estimating development goals through playing Planning Poker.
 - Technologies: ReactJS, Redux, Firebase, GitHub API
- Feb 2018 - **Team Estimation Game** Frontend developer
- Jun 2018
- Single-page web application to play Team Estimation Game.
 - Team size: 4
 - Technologies: ReactJS, Redux, Firebase, GitHub API
- Aug 2017 - **Arte Laguna** Backend Developer
- Jan 2018
- Project made as a part of Software Design classes.
 - Team size: 3
 - Technologies: Python, Django framework
