- 🐙** kkOwalski

## Skills Overview

## Programming

0 LOC —————> 5000 LOC

LaTeX • MongoDB • SQL

HTML5 • JS • CSS

Jupyter • Flask • Sklearn

Scala • C++ • Java

## Profile

**i** An IT enthusiast with 1 year of experience working in a variety of technology fields including Internet Technologies, Automation, Testing and Unix/Linux Administration.

**🎓** A student of data science from Wroclaw University of Science and Technology. Faculty of Computer Science and Management BSc: "Application for supporting remote estimation of story points with the Planning Poker method".

## Education

2018 - 2022 **Master of Science (M.Sc.), Data Science** Wroclaw University of Science and Technology, Poland

2014 - 2018 **Engineer's Degree (Eng.), Computer science and management** Wroclaw University of Science and Technology, Poland

## Experience

2017 - 2018 **Integration and Verification Working Student** (Working Student) Nokia Solutions and Networks, Poland

- Writing tests in robotframework
- Configuring of test environment for 5G testing
- Hardware configuration
- Running tests

## Projects

Aug 2020 - Jan 2021 **DevOps Engineer** Reddit posts scrapping

- Helm charts deployment
- Kubernetes
- Docker
- Celery application which uses rabbitmq queue for scrapping
- Prometheus metrics and grafana charts

Aug 2017 - Jan 2018 **Backend Developer** Arte Laguna

- Project made as a part of Software Design classes. Web application for supporting Arte Laguna Prize
- Team size: 3
- Technology: Python, Django framework

Feb 2018 - Jun 2018 **Frontend developer** Team Estimation Game

- Single-page web application to play Team Estimation Game.
- Team size: 4
- Technology: ReactJS, Redux, Firebase, GitHub API
- Github address

Jun 2018 - Feb 2019 **Frontend developer** Planning Poker

- Single-page application to support remote teams in estimating development goals through playing Planning Poker.
- Technology: ReactJS, Redux, Firebase, GitHub API

Feb 2020 - May 2020 **Python developer** Music and movies recommendation

- System which recommends music and movies for users.
- Team size: 2
- Technologies: Pytorch, Surprise, Tensorflow
